SOLANO IRRIGATION DISTRICT AGRICULTURAL COMMITTEE MEETING DIRECTORS: MICHAEL BARRETT AND DERRICK LUM

Berryessa Board Room
810 Vaca Valley Parkway, Suite 201
Vacaville, CA 95688

PUBLIC - ZOOM PARTICIPATION ONLY

This meeting is compliant with the Governor's Executive Orders N-25-20 issued on March 4, 2020, and N-29-20 issued on March 18, 2020, allowing for a deviation of teleconference rules required by the Brown Act. The purpose of this is to provide a safe environment for staff and the public to conduct SID business, while allowing for public participation. The meeting will be held by teleconference only. **THE PUBLIC MAY PARTICIPATE VIA ZOOM:**

Meeting ID: 830 5925 6415
Passcode: 008674

May 18, 2022
11:00 AM

AGENDA

1. PRELIMINARY

- 1.1. Call Meeting to Order
- 1.2. Introduction

2. PUBLIC COMMENT (NON-AGENDA ITEMS)

Any person desiring to speak on a matter which is not scheduled on this agenda may do so under the Public Comment section. Speaker times are limited to five (5) minutes per person on any matter within SID's jurisdiction, not on the Agenda.

3. SCHEDULED ITEMS

- 3.1 2023 Water Year. Hold verbal discussion regarding a range of scenarios for the 2023 Agricultural Water Year—specifically focused on the potential to enter the year under the Solano County Water Authority's Drought Measures Agreement. Primarily, should the water volume in Lake Berryessa be between 550,000 acre-feet (AF) to 800,000 AF at the start of the water year on April 1, 2023, then all users shall have a 5% cutback. Should the water volume in Lake Berryessa be between 450,000 AF to 550,000 AF at the start of the water year on April 1, 2023, then all users shall have a 10% cutback. The cutback water is placed in a "restricted carryover account". Parties are able to draw on the water when, on April 1st, the levels are either above 800,000 AF or below 450,000 AF.

Under such conditions, the Solano County Cities may also start the water year with a significantly greater cutback on the State Water Project, causing significant consternation regarding water for urban uses.

The Agricultural Committee, therefore, shall discuss the potential 2023 water year scenarios and develop a plan to manage a 5% and 10% cutback. Also, the Committee shall discuss a scenario regarding potential requests to SID to help urban users under said cutback conditions.

4. ADJOURN
