

APPENDIX O – SOLANO COUNTY SCHOOL EDUCATION PROGRAMS

Solano County's School Water Education Program (SWEP) provides free resources for teaching water awareness and conservation. SWEP helps K-12 educators teach youth about conserving and protecting our water resources. See below for screenshots of the program's website.

Project W.E.T. is a water-themed, hands-on, STEM-friendly curriculum presented by SWEP and Solano RCD for K-12 classrooms to enhance water awareness and education.

Visit our website at <http://www.solanorcd.org/resources/swep.html> or see the 2015-2016 school year information sheets below for more information about the programs.

School Programs

School Water Education Program

Solano County's **School Water Education Program (SWEP)** provides **FREE** resources for teaching water awareness and conservation.

SWEP helps K-12 educators teach youth about conserving and protecting our water resources.

Help your students understand where our community's water comes from, how it is used, how we can conserve it, and how we can protect our environment.

Book a class presentation, borrow a teaching kit, attend a teacher training, or get educational materials for your students for **FREE!** We support elementary, middle, and high school teachers.

Our **SWEP Materials flier** provides a list of all materials available to program participants. Contact SWEP Coordinator Laura Morgan at schoolwatered@gmail.com or 707-678-1655 x117 to arrange delivery directly to your school. You can also ask about booking class presentations, and loans of our many classroom kits.

All K-12 teachers and after-school programs in Solano County may use SWEP. The program is funded by Solano County cities and water suppliers.

Join us for the **2016 WET Workshop** on February 26. [Details here.](#)
